

Turim - Absorber Custom Print | PA Range

Hello!

Turim custom print is the go-to solution for quality high resolution acoustic artwork. Any design can be printed on to the panel, be it your favourite movie poster, artwork, a family photo or even your company Logo.

The copyright of the images is the exclusive responsibility of the client.

Be aware that the fabric has a degree of elasticity, and that slight changes in the picture may occur, as well as slight colour variations.

We require that all images include a safety margin, so all images should be larger than the front of the intended panel.

All images should comply to the following guidelines:

Image resolution: 300 dpi (minimum 200dpi)

Image format: JPEG, PNG, etc.

Image color mode: CMYK (Print profile: Coated FOGRA39)

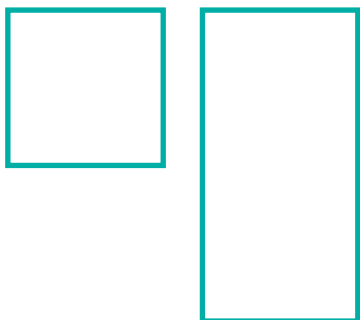

Image example

PRINTABLE GUIDELINES

 Panel Size

 Image with safety margin.
The safety margin wraps around the sides of the panel.
