FixArt Tube

Description

FixArt Tube is a innovative system for acoustic panels. Easy to install, easy to align, Simply follow our template and attach the clip fixture to your surface, and then to the corners of your panel, clip them both into the tube, and you're done! With easy adjustment once mounted, and an easy clip-in, clip-out. Changing your panel design around has never been easier. Also, FixArt Tube creates an air cavity behind your panels, accommodating wall mounting utilizes such as pipes and wires and increasing the panels performance. Provides a solid, level installation independent of the quality of your surface.

Allows for installation on walls, ceilings (with ceiling Lock), slopes or corners - any surface can provide acoustic treatment. Compatible with all foam backed panels.

*Artnovion Patent P. (Acoustic panel with integrated frame system) & Frame design
