

Hello!

Our Azores Range is now available in custom printed fabric - we can reproduce any picture or logo, creating quality acoustic artwork.

The copyright of the images is the exclusive responsibility of the client.

Be aware that the fabric has a degree of elasticity, and that slight changes in the picture may occur, as well as slight colour variations.

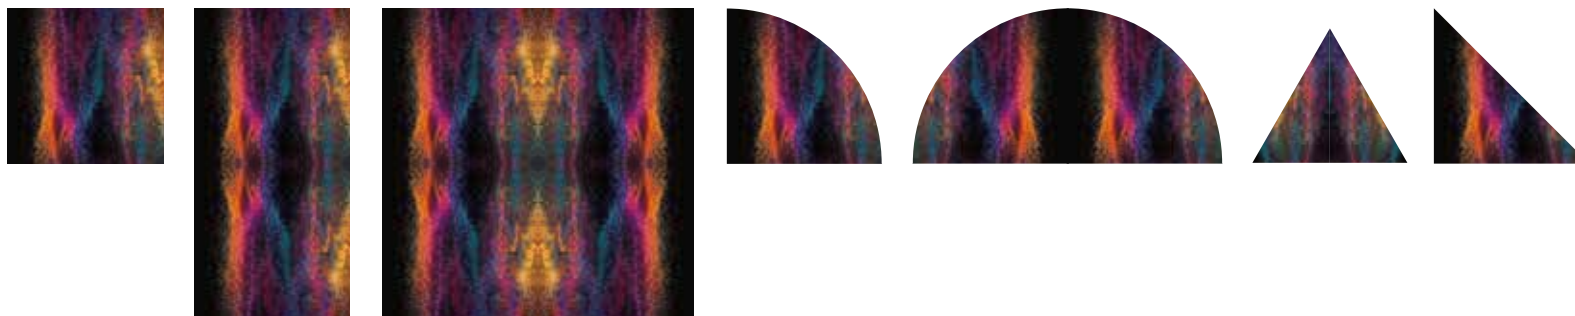

We require that all images include a safety margin, so all images should be larger than the front of the intended panel.

All images should comply to the following guidelines:

Image resolution: **300 dpi**

Image format: **JPEG, TIFF, etc.**

Image mode: **CMYK**

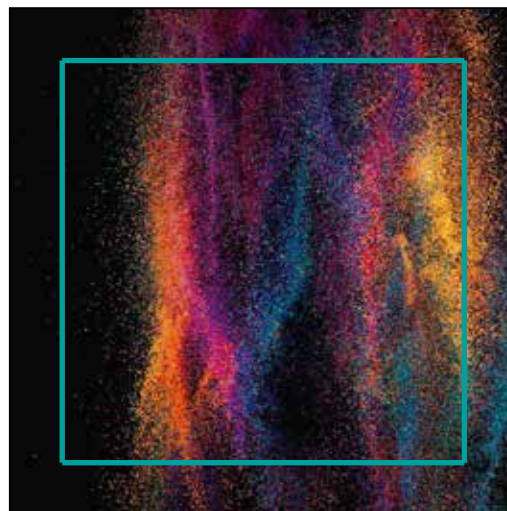

GUIDELINES

Image resolution: **300 dpi**
